

BioDrive®

Biotics Research Corporation is proud to introduce three new and exciting women's formulas, **BioDrive®**, **BioPause-AM®** and **BioPause-PM®**. This trio of formulas was developed with the kind assistance of Michelle Pouliot, ND.

BioDrive® is a proprietary herbal blend, containing *Rhodiola rosea* extract for adrenal support, *Turnera diffusa*, an ancient aphrodisiac, *Urtica dioica* extract, an aid to limiting SHBG (sex hormone binding globulins), and *Ginkgo biloba* and *Panax quinquefolius* for increased circulation to the extremities, including the sex organs.

In an evaluation using **BioDrive®** 12 of 17 women (71%) who responded to a survey reported they had a greater interest in sex. Of the twelve positive survey responders, ten said they were more easily aroused, eleven indicated more pleasure with sex, eight reported an improved ability in achieving an orgasm, and five reported increased intensity of orgasm. Some patients on SSRI's, which have a known effect on libido, have found **BioDrive®** to be very helpful.

Bio-Drive® is available in 120-count bottles (#7864).

Supplement Facts

Serving Size: 2 Capsules
Servings Per Container: 60

	Amount Per Serving	% Daily Value
Proprietary Blend	800 mg
